TO CLEAR FOR CUBA

The Steamer Dauntless Can Sail With Her Cargo.

IT IS ARMS AND AMMUNITION.

All Laws Compiled With and Nothing but Armed Force Can Prevent the Landing of Filibusters on Cuban Soil—Two Cargo Ready for Transportation—The Latest Cuban War News.

WASHINGTON, Dec. 31.—For the first time since the present struggle in Cuba began this government has given permission to a customs official to clear for Cuba a vessel loaded, according to her manifest, with munitions of war and presumably intended for the insurgent army.

The vessel in this case is the well known and alleged filibuster Dauntless, but the concession that under these circumstances she is entitled to clearance papers leaves the situation so far as she is concerned quite as involved as before, as the statutes prescribe that before clearance shall be granted for any vessel bound to foreign port, the owners, shippers and consignees of cargo shall state under oath at what foreign port the cargo is to be landed, and severe penalties are prescribed for violations of this requirement, including the confiscation of the vessel.

Some time Tuesday the secretary of the treasury received a telegram from the attorney for the owners of the Dauntless at Jacksonville stating that the owners of the Dauntless and her cargo would apply to the collector of customs at Jacksonville for clearance to a Cuban port with a cargo of arms, stating, however, that the oaths required by the statutes would not be taken. The question was asked whether under these circumstances papers would be issued.

Later in the day a telegram was received from the collector at Jacksonville stating that application to clear the Dauntless for the port of Neuvitas, Cuba, with a cargo of arms, had been made and asking instructions.

The secretary replied substantially as follows: "If the master of the vessel and the owners, shippers and consignees of the cargo comply fully with all the laws and regulations concerning the manifest and take the oaths required, you may grant a clearance to Neuvitas, Cuba. The oaths must be taken and subscribed in writing as required by Sections 4197, 4198 and 4200 of the revised statutes."

The port named in the application as the destination of the cargo is on the northern coast of Cuba and is occupied by the Spanish forces. The treasury officials, therefore, are of the opinion that the oaths required by the statute will not be taken.

Later yesterday afternoon the collector of customs at Jacksonville wired the secretary of the treasury that the steamer Commodore had applied for clearance upon practically the same statement of facts as in the case of the Dauntless. In response the secretary wired permission to issue papers to the Commodore in substantially the same terms as were named in the former case. Up to the hour of closing the department on information had been received as to the movements of either vessel, or whether the conditions imposed had been accepted.

OPEN TO ARMS.

The Commodore Will Carry Arms and Ammunition to the Insurgents.

JACKSONVILLE, Fla., Dec. 31.—The steamer Dauntless, which the government has granted permission to clear for a Cuban port, with a cargo of munitions of war, is not in port at present. The owners say that she has gone on a "wrecking" trip, and may not return for a week. The Dauntless gave the revenue cutters the slip yesterday going out of the river from one of the shallow channels and this has aroused suspicion that the vessel is again on a filibustering trip. The owners say that the vessel will be formally cleared for Cuba as soon as it shall return.

The Commodore has also been granted permission to clear with arms. Several carloads of arms and ammunition are in the city awaiting shipment.

A rather anomalous fact is presented in that, if either boat shall clear for Cuba, the Spanish consul or vice consul will have to sign the clearance papers, this being required when a vessel clears for a foreign port. In this instance it would be a case of a Spanish officer affixing his signature to a document permitting a vessel to carry war material to a people fighting against his own government.

Consul Solis was asked if he would refuse to sign clearance papers of the Dauntless. He said that he could not do so, as it was his duty to sign the papers.

The cargo of both boats will be shipped to Salvador Cisneros, president of the Cuban republic, the Dauntless' cargo consigned to Neuvitas and that of the Commodore to Santiago.

SPANISH DISPATCHES.

News as Sent Out by the Weyler Officials at Havana.

HAVANA, Dec. 31.—Meager accounts have been received of an encounter between the Spanish column under Colonel Segura and the insurgents under Ruis Rivera, Maceo's successor, in command of the insurgents in Pinar del Rio. It is known that Colonel Segura, while reconnoiting on Dec. 25 at Brazo Nogales, near Pinar del Rio, came upon a camp of the insurgents consisting of many huts. After a skirmish the Span-

ish continued their march and at Cabobas, Rio Hondo, they met a numerous force of insurgents under Ruis Rivera, holding advantageous positions. The firing became general, and the insurgents, nearly all of whom were negroes, were dislodged and dispersed after four hours of hard fighting. They suffered heavily from the rifle and artillery fire at short range. The Spanish column had two soldiers killed and a lieutenant and 16 soldiers wounded, besides several who were slightly bruised.

United States Consul General Fitzhugh Lee paid a visit to the American prisoners in the Cabobas fortress yesterday.

Vice Consul General Joseph A. Springer was unable to sail for the United States yesterday but he will leave on Saturday.

General Obregon, while reconnoitering in the mountains of Tuumba, in Pinar del Rio, discovered a factory for making explosive bombs. There were three boxes of dynamite in the factory. Hundreds of native huts in the neighborhood were ordered burned, and a woman, alleged to be the mistress of the insurgent Nunez, was captured and sent to the jail at Candelaria.

THIS IS DIFFERENT.

This Statement Says That Spain Has Accepted of Our Good Offices.

LONDON, Dec. 31.—The correspondent of The Chronicle at Washington, in a cable dispatch to that paper, declares that there is no doubt that Spain has officially, through Señor Dupuy de Lome, their minister, promised to accept the United States mediation directly after General Weyler has cleared the province of Pinar del Rio of rebels, and then to grant anything short of actual independence for Cuba. This dispatch continues:

"None of the European powers has protested against American intervention in Cuba. On the contrary, Mr. Olney has been assured of their approval. England, however, remaining strictly neutral. The reports of a European protest were inspired by Manager Martinelli, the pontifical delegate to the United States."

The Chronicle also again asserts that "The ridiculous statement of M. De Blowitz, the Paris correspondent of The Times that Germany and other European governments were preparing to protest against American intervention in Cuba is absolutely unfounded."

JUNTA CLAIMS A VICTORY.

Tomas Estrada Palma's Opinion of the Secretary of the Treasury's Decision.

WASHINGTON, Dec. 31.—Tomas Estrada Palma, president of the Cuban junta, said after reading the order of the secretary of the treasury relative to the Dauntless clearance: "This is victory for us so far as it allows the boat to leave port. We have forced the authorities at Washington to give us clearance papers, although some time ago they declared that such boats as the Dauntless could not get them except under stringent restrictions. This is a step forward."

If a vessel clears for a certain port she has to give a reasonable excuse if she does not deliver her cargo at that point. But stress of weather you know, or some other accident might compel her to throw the cargo overboard or deliver it somewhere else. We in New York know nothing of the Dauntless case. We hope it will result in a proper construction of the law which is now vague and difficult to understand. Even the authorities at Washington are all at sea regarding it, and it will be a good thing that we have got a ruling."

PLEADING FOR DR. BETANCOURT.

The Prisoner's Son and Others Appeal to Secretary Olney.

NEW YORK, Dec. 31.—Cuban sympathizers in New York have sent to Secretary Olney a formal appeal that the state department exert its influence in behalf of Dr. Gaspard A. Betancourt, arrested in Havana on suspicion of being an agent of the Cuban junta in New York. Lorenzo Betancourt, the prisoner's son, lives in this city. He said to a reporter:

"The Betancourt family is one of the oldest in Cuba. For more than 200 years the Betancourts have been the principal land holders in Camaguey. Several are included in the Spanish nobility. My father was only 17 years old when the Lopez revolution began, in 1851. He joined it, was captured, and condemned to be shot, but escaped to this country and lived here up to a few years ago. He is a graduate of the Pennsylvania college of dental surgery and practiced in Boston and New Orleans. He married a Miss Crowley of Albany. In the 10 years' war much of his property in Cuba was destroyed by the Spaniards. It was only to prosecute his claim for damages that he finally went to Havana. His naturalization papers were issued in 1873. I attribute his arrest principally to the fact that he was always outspoken in his admiration of everything American—in itself enough to make Spanish officials hate him. He is 66 years old and infirm. He can not long survive in a Morro dungeon."

TWO WOMEN KILLED.

READING, Pa., Dec. 31.—Two women were killed by an explosion of dynamite in the house of Elias Becker, ex-sheriff of this county, at Tuckerton last night. They were his wife, aged 54, and her stepdaughter, Mrs. William Seidel, aged 30. Both were terribly mangled.

BIG FIRE AT DEFIANCE, OHIO.

The Wertheimer Building, Occupied by Shoemaker Brothers as a Dry Goods Store, Entirely Destroyed—Hall Burned at Charleston, West Virginia—Factory Destroyed at Nelsonville, O.

DEFIANCE, O., Dec. 31.—The most disastrous fire that has ever threatened this city raged for four hours last night, causing a loss of \$100,000. The fire started in the Wertheimer building on Clinton street, occupied by Shoemaker Brothers as a dry goods store. The loss on building and stock was \$60,000. The insurance on the building is \$5,000 and on Shoemaker Brothers' stock \$60,000. Other concerns in adjoining buildings suffered damage by water.

When the floor of the third story of the burning block gave way, Fireman Joseph Miller was knocked from the building into the canal, but was rescued. When a portion of the front wall fell, Fire Chief Louis Spires, Assistant Chief Jerry McCarty and Fireman Peter Seibel were caught under the debris and were severely injured.

Hall Burned.

CHARLESTON, W. Va., Dec. 31.—Old Germania hall burned yesterday. It was one of the most destructive fires in Charleston lately. It was occupied down stairs by Henry Rummel's bottling works and R. J. Ashby's feed store; upstairs by J. M. Simm's saloon and the Summers Street theater. All the effects of the saloon and the wardrobe of the show people were burned. It originated in the ladies' dressing room.

Fire Sweeping Everything.

NELSONVILLE, O., Dec. 31.—The factory of the Nelsonville Sewer Pipe company burned yesterday, throwing 150 men out of employment for the winter. This factory was the first to be built of the kind in the city and quickly followed the East Clayton in smoke, the two factories, the principal industries of the city, burning within a month of each other. Loss fully \$100,000, partly covered by insurance.

Chapel Burned.

NEW ALBANY, Ind., Dec. 31.—Simpson M. E. Chapel, which has been a bone of contention between two factions of the congregation, was burned yesterday. The loss is \$1,000, with no insurance. There are sensational rumors regarding the origin of the fire, but no arrests have been made.

Four Firemen Injured.

PHILADELPHIA, Dec. 31.—During a fire at 9 Strawberry court, in the heart of the wholesale section, about 1 o'clock this morning, four firemen were injured by the breaking of a ladder. One of them, John Dever, will probably die. The damage to the building was small.

WILLIAM H. PARKER DEAD.

He Was a Prominent Confederate Officer During the War.

WASHINGTON, Dec. 31.—Captain William H. Parker of Richmond, Va., died here yesterday of apoplexy. Captain Parker was formerly president of the Maryland agricultural college, and before the war was professor of astronomy at Annapolis.

At the beginning of the late war he resigned from the federal navy, and entering the Confederate navy became one of its most prominent officers.

At the time of his death he was engaged upon a history of the Confederate navy, which he was commissioned to write by the Historical Society of Virginia.

Captain Parker was a son of Commodore Foxhall Parker of the old navy. He was a classmate of Admirals Franklin and Ramsey at Annapolis in 1842, when he entered the navy as a midshipman.

During President Cleveland's first administration he was minister to Korea, and since resigning that office he has lived a retired life, engaging in literary work.

Deed of a Maniac.

NORWICH, Conn., Dec. 31.—While suffering from religious mania Isaac Douglas, a farmer of Voluntown, attempted to kill his son, aged 30, with an ax, making four wounds on his head. He then built a fierce fire and was making preparations to burn his own body and that of his son, when neighbors broke into his house and rescued them both. The son is not expected to live. The elder Douglas claims he was influenced by a spirit. He will be committed to an insane asylum.

Only to Close Up Accounts.

PLATTSBURG, N. Y., Dec. 31.—George T. Murdoch has been appointed receiver for Witherbee, Sherman & Company, upon application of interested parties, members of the firm, who desire a partition and sale of the property. The firm is in no financial difficulty and has no indebtedness. The partnership expired by limitation in September. The property, consisting of extensive iron ore mines and furnaces at Port Henry, is valued at from \$2,000,000 to \$3,000,000.

WASHINGTON, Dec. 31.—Yesterday's statement of the condition of the treasury shows: Available cash balance, \$227,073,158; gold reserve, \$136,537,249.

TARIFF ON SUGAR.

Arguments Presented Before the Ways and Means Committee of Congress.

WASHINGTON, Dec. 31.—The sugar schedule was the subject of the hearings before the ways and means committee of congress yesterday, and it was the most interesting as well as the most important schedule so far considered. The conflicting interests of the producers, refiners and importers were brought out in sharp contrast. The producers wanted higher duties all along the line, and the refiners pressed for high duties on refined and not so high on raw sugars. The latter were especially anxious that in imposing countervailing duties against export bounty countries the additional duty should be levied only against the refined article.

The importers, the cane growers, the refiners, and the beet growers each were given hearings by the committee. John Farr of New York, Solon Humphreys of New York and P. J. Smith of New York, represented the importers; Colonel J. D. Hill of New Orleans represented the cane sugar growers. W. J. McCann of Philadelphia, the refiners, and Henry T. Oxnard of Grand Island, Neb., and Herbert Myrick the beet sugar interest.

Francis T. Thurber, a New York merchant, and J. H. Sypher of this city, Bishop Thomas R. Culer of Utah and R. M. Allen of Nebraska also made arguments, while Senator Perkins of California submitted a printed brief.

DOING AWAY WITH RED TAPE.

Two Radical Changes in the Procedure of the Pension Office.

WASHINGTON, Dec. 31.—Two radical changes in the procedure of the pension office have been made. All claims for increase, save in extraordinary cases, hereafter, will be sent direct to the medical division of the bureau without having to be passed upon by the board of review, as had been the custom for years. This action is taken on the ground that the bulk of increase cases involve only medical action and that much routine detail in going through other channels of review will be saved.

Another step in the simplification and quicker adjudication of claims is that hereafter there will be no necessity for cash before the board of review being based upon by three or four examiners. This has been a long-continued practice but Commissioner Murphy has fixed the number of the examiners who must review each claim at two. This he thinks will minimize errors and delay and be of benefit to the service. Both new rules are in line with the decision to abolish useless detail in pension adjudication.

Kick Against Canada.

BUFFALO, Dec. 31.—The merchant tailors of Buffalo have subscribed several hundred dollars which will be used to secure the passage of a bill by congress, prohibiting any one from importing duty free more than two suits of clothing and one overcoat, the value not to exceed \$100. Buffalo tailors complain that it is becoming common for people in border towns to visit Canadian cities and bring back with them clothing enough to last a year.

Witness Beaten to Death.

VANCEBURG, Ky., Dec. 31.—Sam May, suspected of violation of the revenue laws, enticed Washington Smith to a shaded covert one mile from here on the Ohio river Tuesday night. He then accused Smith of informing on him, struck him down with a stone, and assisted by his brothers, Heintz and Hiram, beat Smith to death with clubs and stones. Sam May was arrested and a posse is in pursuit of the other two brothers.

About 10 days ago Smith, who had been suffering from nervous trouble, leaped from the Louisville and Jeffersonville bridge, a distance of 100 feet. THE balance of trade between this country and Europe for 1896 will be in our favor to the extent of about \$300,000,000, says an exchange; and besides, for the year, we will export to Europe about \$35,000,000 of silver and take about \$50,000,000 out of the ground. These facts and figures, say New York financiers, will make us "bully" for a long run; and it is believed that before another year rolls around the country will be in the midst of great prosperity. And just think all that is coming about under the Wilson hill.

SINCE the extension of the civil service rules and regulations to the various Government positions by President Cleveland there remain only seven hundred places at the President's disposal in the reorganization of the departments, and fifty-three consulates in the general service. For these positions there are at least 10,000 applications, with new additions every day. This being the case, it is not likely that Mr. McKinley will make much of a play against the game, says a dispatch from Washington. He will be contented to make many disappointments to his followers, as he will not care to run the gauntlet of public opinion on civil service reform.

Persia and Anatolia provided the original quinces, the Greeks took to their culture and they may be seen on the walls of Pompeii.

India grew the first lemons, which were unknown to the ancient Greeks and Romans. Lemons were introduced in Spain by the Moors near the thirteenth century.

Solomon wished to be comforted with apples, and before and since his time the apple has been a mainstay of the people. The Romans brought the apples from the East.

Pears were cultivated in most antique times in Asia, and were brought from the East by the Romans. The first cherry tree in England was planted by Raleigh. Lincolns first brought cherries from Asia to Italy after his defeat of Mithridates.

The date palm is in Arabia the chief source of wealth and food. The Arab chiefs draw power, nerve and muscle from the consumption of this fruit. Pomegranates and olives were also anciently cultivated, and are frequently mentioned in sacred writings.

Venerable antiquity hangs about the banana and by some it is believed that the great clusters of grapes brought by Jewish spies from the valley of Eschol, so heavy that two men were required to carry each, were in reality bananas. Clifftagong, Phillipine Islands, Siam, and Ceylon were the original homes of this fruit.

The venerable fig was one of the earliest fruits to be cultivated, and its praises are sung in poetry, history and romance, while the Bible frequently alludes to it. It was a principal food of the Greeks, and is now cultivated in all the countries around the Mediterranean, though our supply comes from Asia Minor, Southern France and Spain.

Hindostan had a monopoly on oranges till this fruit spread to the other parts of the world. The crusaders brought back oranges, but the ancients around the Mediterranean were so unhappy as to die without having tasted this delicious fruit. We are all eating the descendants of one tree if what the Portuguese claim is true. They declare the progenitor of all American and European oranges was a single oriental tree transplanted to Lisbon, and still living in the last generation.

Merrill, Baldwinsville, Mass., says that he has used and recommended it and never knew it to fail and would rather have it than any doctor, because it always cures. Mis. THE LATE REV. WM. GOREY.

The Catholic Columbian Pays a Touching Tribute to the Deceased.

In its account of his death, the Catholic Columbian pays the following tribute to the late Rev. Wm. E. Gorey, who was assistant pastor of St. Patrick's Church some years ago:

The loss of his death is to the diocese is hard to measure. He stood in the foremost rank of its priests, if he did not lead them, and his was, unqualifiedly, the keenest, most logical and far-seeing intellect. His abilities were quickly recognized by Bishop Moes, and the priest, young in years but keen in judgment, was appointed diocesan director years ago. Preferments came to him from outside, too. It may not be generally known that a chaplaincy in the arm of the navy of the United States was at one time offered to him, and as he was but entering upon his life, it is impossible to determine what dignities his mental powers and zeal might have received.

Viewed as a citizen the same striking characteristics appear. He was as ardent, almost, in his political opinion as in his religious belief, and so intense was the admiration of his sterling qualities and loyal life, notwithstanding his strong Republican sentiment, his creed and calling, he received the appointment of chaplain of the Kentucky Senate, while pastor in Frankfort. Last election day, though ill then, he drove to the polls to cast his vote for Maj. McKinley and felt a patriot's enthusiasm over the triumph of his party.

But beyond the capable priest, the patriotic citizen, is the work, the life, the Christianity of the man. The zeal for the glory of God that, in spite of every difficulty, raised a beautiful temple to him in Erlanger and in the classic town of Versailles, sent him into the cells of the Frankfort Penitentiary and into its wretched hovels. Wherever there was misery to be relieved or sorrow to be soothed, wherever there was affliction to be lightened or sin to be wiped away, there might Father Gorey be found, never failing. It was said by one who knew something of his work, that his charity was boundless, no appeal was ever made to him in vain, and he received as his reward that title beyond the proudest on earth, "The Poor Man's Friend." Possessed of such qualities of mind and heart, it is no wonder that to know him was to admire him and that his friends should be numerous; wherever he has lingered, there you will find them ready to agree with this summing up made by one to-day: "Kentucky will not see his like again." Could pages of eulogy add to the regard of a man who leaves such friends to mourn him, of whom such words may truthfully be spoken?

HERE'S A GOOD ONE.

Benjamin Carroll's Remarkable Experience Near His Home in the County of Lewis.

VANCEBURG, Ky., Dec. 26.—A remarkable accident occurred just south of the city, in which Benjamin Carroll's escape from death seems little short of miraculous.

He and Jeff Smith were prying at a saw-log on a steep hillside to shift its position slightly, when it suddenly slipped from their hand spikes and started down the hill. Carroll was below it, and, in trying to leap out of the way, he fell headlong directly in front of the log's path.

As fate would have it, he fell lengthwise in a little drain, barely deep enough to screen him, and the log, which otherwise would have crushed him to death, went thundering harmlessly over him.

AN exchange says: "It is a matter of wonder how in this short life so much time can be wasted in nursing a spirit of revenge and living solely for the purpose of 'evening up' with supposed enemy. A person so constituted throws away all that makes life worth living. Revengefulness and bitterness of spirit soon dwarfs one's better nature so that he becomes utterly incapable of appreciating that which is good, pure and noble—in short all the best things in life."

HARRY WOOD, a well-known young man of White Sulphur, Scott County, is in custody, charged with robbery. Christmas eve Milligan Fleming went to Dry Run to a Christmas tree at the Christian Church. While hitching up his horse in the church yard, in sight of several other men, he was held up by a masked man and robbed of his money and revolver. Fleming started to run to the church, and the robber shot at him, the bullet going through his coat collar. The high-wayman escaped. Suspicion pointed to Wood, and, when arrested, Fleming's pistol was found on him. His bail was fixed at \$1,000.

THE Millersburg correspondent of the Paris Kentuckian says: "Rev. J. G. Anderson, pastor of the Presbyterian Church, resigned last Sunday. He has accepted a call to Tampa, Fla. The Presbytery will meet here on January 12th to declare this pulpit vacant. Rev. Anderson came here from North Carolina three and one half years ago. His leaving will be a public loss to this town and community. He is a strong and forcible preacher, finely educated and a pure, good Christian man; always ready and about when affliction entered a home; not intrusive, but always on the alert, socially, agreeable and genial, and his family is a model one. The other denominations will regret his leaving. Between him and the different pastors of the town has always existed a bond of Christian union."

HOW many young men and young women are out just as the future seems brightest and full of promise! They are taken away by the disease which causes over one-sixth of all the deaths in the world—the disease which doctors call consumption. There is absolutely no reason in the world why consumption should be fatal—why it should be even serious. It is a disease of the blood, and can be cured absolutely and always by purifying and strengthening the blood. The only exception to this is the case where the disease has been neglected and improperly treated until it is stronger than the body—until the body has become so weak as to have lost the ability to recuperate. Dr. Pierce's Golden Medical Discovery will cure 98 per cent. of all cases of consumption if used according to directions. It also cures all laringeal coughs, bronchial and throat affections.

THINKS LAUGHLIN CRAZY,

And the Bracken County Murderer May Not Be Hanged January 9th—Governor Bradley to the Contrary.

[Courier Journal.]

MAYSVILLE, Ky., Dec. 29.—Robert Laughlin, the notorious Bracken County murderer, may not hang January 9th after all. Sheriff Hook has the duty of hanging Laughlin, and he has expressed the opinion that Laughlin is insane and ought not to be hanged. In such cases the Sheriff may summon a jury to pass upon the prisoner's sanity before executing the death penalty. There is some doubt of Laughlin's sanity in the minds of many, but it is not believed that any jury in Bracken County will return a verdict of insanity.

FRANKFORT, Ky., Dec. 29.—When told to-night of the Bracken County Sheriff's view of Laughlin's sanity, the Governor said to-night: "The Sheriff has no option in such a case and if he fails to perform this or any other duty, he forfeits his office."

If the Governor is reported correctly in the dispatch from Frankfort, he is badly "off" on this point of law. The statutes are very plain as to the duty of a Sheriff where he believes a person awaiting execution is insane. The law explicitly says the officer may summon a jury who shall decide whether the prisoner is of sound mind or not, and if the prisoner is found to be insane, then the officer shall suspend the execution and notify the Governor of the result of the inquest.

As the local correspondent of the Courier-Journal states, it is doubtful whether a jury can be found in Bracken County that would return a verdict of insanity in Laughlin's case.

NEW YEARS AT THE Y. M. C. A.

"Open House" To-morrow—Reception to Young Men in Afternoon and Public Reception at Night—Lunch—Cean to Be Served.

The Young Men's Christian Association will keep "open house" to-morrow, and, with the assistance of the ladies, a program for the occasion has been arranged that cannot fail to prove attractive to the members and other men of the city.

An informal reception will be tendered to the young men in the afternoon, from 2 to 6 o'clock. Games and music will be provided, and between 3 and 5 o'clock the ladies of the Social Committee will be on hand to serve luncheon to gentlemen visitors, the tables being spread for this purpose in the gymnasium. Every young man in the city, whether a member or not, is invited to come in whenever convenient during the hours of the reception (2 to 6), and, if possible, spend the entire afternoon at the rooms.

A special invitation to be present is extended to young men who are away from their home, and to any strangers who may be stopping in our city at this time. Any such will be cordially welcomed and made to feel at home.

A public reception will be given in the evening, commencing at 7:30 and lasting until 9:30. The ladies will arrange a pleasing musical program for the entertainment of the guests, and an inspection of the rooms and gymnasium will be granted to all. Each of the gentlemen visitors for the evening, and all men of the city are invited, will be privileged to bring a lady friend.

No pains will be spared by the ladies and young men of the association committees to make both the afternoon and evening receptions enjoyable to all who will attend them.

Because of the special plans for New Year's day, as outlined above, neither the gymnasium or baths will be open to the members for use at any time during the day or evening, excepting for the purpose of inspection by visitors.

The young men's gymnasium class will meet again on Saturday evening at 7:30 o'clock; and all members or would-be members of the class for business and professional men are requested to meet this afternoon at 4 o'clock.

The women's committee will hold another meeting at the association parlor this afternoon at 2 o'clock for the purpose of completing arrangements for the New Year's reception. A full attendance is desired.

DESTITUTION IN ARGENTINA.

The Government Helping the Farmers In
the Province of Santa Fe.

NEW YORK, Dec. 31.—A dispatch to The Herald from Buenos Ayres says: The agricultural commission appointed to investigate the condition of agriculture in the province of Santa Fe will make a report to President Uriburu this week. The report will, it is said, show a disastrous state of affairs among the farmers in the province. It will recommend as the only salvation, commercially, an issue of \$1,000,000 in mortgage bonds to be used in assisting the farmers in this crisis. Other measures of relief will also be proposed in its report. The commissioners say that the corn crop in the province will fall 50,000 tons short of the actual necessities of the people.

Buenos Ayres is now sending grain to that province to relieve the distress. In ordinary times the yield in that province is 800,000 tons, but the whole crop this year is practically a failure. The Buenos Ayres farmers will continue to send corn to Santa Fe for the relief of their countrymen, though that will prevent their exporting any grain.

POISONER IDENTIFIED.

Cincinnati Police Have the Man That
Killed Little Eddie Grace.

CINCINNATI, Dec. 31.—Three weeks ago last Sunday night Eddie Grace, 10 years old, was killed by eating poisoned candy given him by a man while he and his sisters were playing on the street. Last night David White, prisoner in jail for writing improper letters to sundry people, was positively identified by Mr. and Mrs. Anzi Miller as the man whom they saw give the little victim the fatal candy. They are positive of the identity of the man.

Mr. White informed the chief of police the day after the murder, and every day since has walked all over the city with detectives in search of the murderer, a fact heretofore unknown to the public.

Freight Train Wrecked.

AUSTIN, Dec. 31.—An International and Great Northern freight train was wrecked three miles south of here yesterday afternoon, presumably by train robbers laying for the passenger train. A brakeman, Fred Johnson, was killed, and Engineer John Smith seriously injured. A switch was left open and rocks piled on the track. Obstructions were found on the track at the same spot a week ago but were discovered before the midnight express passed.

Confessed to Murder.

DETROIT, Dec. 31.—James E. Lawson, an ex-convict, has confessed to being one of the two men concerned in the murder of James Brown, a farmer living near Millington, the night of Dec. 23. He says that his companion, Howard Hawley, a young mulatto, fired the fatal shot at the aged farmer. Lawson states that the job was inspired by Thomas Stevens of Detroit, Brown's brother-in-law, who put his confederates up to robbing Brown.

Hiccupped For Two Weeks.

CINCINNATI, Dec. 31.—Adolph Klein, 66, is still a sufferer from continuous hiccoughs at his home at 419 Laurel street. The spasms have continued almost incessantly for two weeks. Anti-spasmodic remedies are being administered by Dr. Fogel, who feels that the case is especially serious, from the man's age. Klein is not yet out of danger. His hiccoughing is caused by some nervous irritation which can not be located.

LAPORTE, Ind., Dec. 31.—Samuel Bonevitz, life-term man in the prison north, was released yesterday morning on a pardon from Governor Matthews. Bonevitz was convicted of murder on circumstantial evidence, and his innocence has been established after serving eight years.

IT CAUSED A RIOT.
A Gang of Italians Resist a Body of the
Police Force.

WILLIAMSPORT, Pa., Dec. 31.—A desperate riot occurred at Johnsonburg early yesterday morning, which resulted in the fatal shooting of William Bergin, and the serious injury of James McMinn, Charles Glover, Charles Wrathall and several others, members of the police force. The trouble was begun by a gang of Italians who became involved in a fight, using knives, revolvers and clubs.

The police were sent for, but the rioters, headed by Tom Marone, met them and a fierce battle followed. Marone shot at Chief of Police Walsh but the bullet struck Bergin in the head. The police closed in and the Italian thrust the weapon against Walsh's breast and fired. A defective cartridge saved the policeman's life, and Marone was knocked down and secured. The other policemen's injuries were inflicted by knives and their clothing was cut to pieces. Marone carried a pistol and three knives.

BANK Looted.

DES MOINES, Ia., Dec. 31.—At Sully, Ia., a small town near Newton, robbers looted the State bank last night. The bank was incorporated in 1891 with \$5,000 capital. The deposits were about \$17,000. A. Smith is president and L. A. Sherman cashier. Details of the robbery are hard to obtain because the town has no telegraph connection. It is reported the robbers entered the bank, blew open the safe and carried away an amount of cash estimated at from \$5,000 to \$20,000.

NEW Counterfeit Ten Dollar Bill.

WASHINGTON, Dec. 31.—Chief Hazen of the secret service has issued a circular warning against a new counterfeit \$10 national bank note, on the National bank of Detroit. The note is the product of the same hand which produced the recent counterfeit on the National Bank of Commerce of New York. One distinguishing feature is that the back of the note is upside down.

Removed For Safekeeping.

SALEM, Ind., Dec. 31.—Officers Sexton and Brown of Louisville have been indicted on the charge of wilful murder in the killing of young John Ripley, whom they mistook for a criminal named Brooks, on whose trail they were. The officers were refused bail, and owing to the intense excitement at this place, were taken to New Albany for safekeeping.

Mrs. Beecher Hardly Can Recover.

STAMFORD, Conn., Dec. 31.—The condition of Mrs. Henry Ward Beecher, whose hip was broken by a fall at the home of her son-in-law in this city on Sunday, is grave. The attending physicians doubt if she can recover, although her death is not immediately expected. She is very weak and has sinking spells at intervals.

No. 13 In Rome.

An observing tourist who visits Rome and walks through the streets is doubtless surprised that there are very few houses bearing the ominous number 13, nearly all the houses that should bear those figures being marked 12b or 14a. Nor is the superstition regarding the fateful 13 absent from scientific and phlegmatic Germany, for the other day a merchant in Berlin applied to the magistrate of the district to have the number of his shop changed from No. 13 to No. 12b. The magistrate, however, refused to grant the petition. In Frankfort, on the other hand, the owners of buildings bearing No. 13 are allowed to change the figures upon a simple application to the proper authorities.—New York Tribune.

Meeting at Tammany Hall.

NEW YORK, Dec. 31.—The general committee of Tammany Hall met last night and adopted a long series of resolutions presented by Thomas F. Brady. They denounced trusts, favor cheaper gas and telephone rates and condemn the present city administration, but extend no olive branch to the Democrats who bolted Bryan last fall.

He was a member of the old Harlem ball club of New York, a member of the Nationals in Washington and in 1871 joined the old Boston club as a right fielder.
